May not the Conflict Victims' Right to Justice be Overshadowed!

On behalf of Human Rights Organization of Nepal also in the presence of the conflict victims, National Human Rights Commission, Nepal today received a memorandum which claims that the alleged of the conflict are being provided immunity and the victims are deprived from the justice. By receiving the memorandum the NHRCN Chairperson Anup Raj Sharma said "may not the conflict victims' right to justice be overshadowed, and the conflict victims being united should fight for justice."

If the transitional justice mechanisms are not effective, the justice will miss its track, Mr. Sharma added. He claimed that if the transitional justice mechanisms have submitted its reports/recommendations in a timely manner then only the issues of human rights can be concretized. He wished for non – partition between the conflict victims and added that then only it would be easier for the issues of human rights be addressed institutionally.

In this program, Hon. Members of the Commission, Secretary, other staffs and conflict victims themselves were also presented.
