## Press Release

December 18, 2014

### Government urged to make easy availability of vaccinations

The attention of the National Human Rights Commission has been drawn to the media report on the shortage of MR and BCG vaccines meant for children in various parts of the country a few days ago.

The vaccines are learned to have run out of stock in central and regional stores as per the monitoring conducted by the Commission. The Commission, therefore, would like to draw the attention of the Government to ensure the right of children's health by making the vaccines adequately available as soon as possible.

The Commission would also like to draw the attention of the Government to respect the children's right to vaccines guaranteed through the Articles 21(a) and 21(b) of the UN Convention on Rights of the Child-1989(CRC) and Article 22(2) of the Interim Constitution in the future.
